Corey Kalil
Campus outreach Program Manager at Google, Inc

Google, Inc.
340 Main st. Venice CA, 90291
Los Angeles California

Dear Mr. Kalil:

I am writing to apply for Software Engineering Intern, BS, Summer 2025 at Google. I am currently an intended Computer Science major at University Of Central Florida, and I hope to pursue a career in Software Engineering . I am eager to improve my understanding of data structure. My strong people skills, desire to work and lead teams, and analytical thinking ability will allow me to be a strong contributor to a Software Engineering team atGoogle.

I am particularly drawn towards an Internship at Google because it will give me the opportunity to enhance my skill set in coding and algorithms in an environment that supports my values. I am eager to use my prior experience with Coding and algorithms to assist Google in its mission to change the world we live in for the better .

My experiences with object oriented programming and algorithms have prepared me to be a successful intern. As a Food and Beverage Manager, I was responsible for payroll and management. Through this experience, I learned what it takes to run a business, which I know will be especially valuable in my work for Google. After working] at Hilton Hotels, I have developed a strong background in management and am prepared to work with engineers from all cultures and backgrounds.

As an intern at Google, I am excited about the opportunity to learn. I am confident that I have the discipline, motivation, and skills to succeed at Google. I would welcome the chance to discuss my qualifications with you in greater detail. Please do not hesitate to contact me by email SethJonesIntern@gmail.com or by phone (321) 848-1834. Thank you for your time and consideration.

Best wishes,
Seth
